Refunds/Cancellation

In case of cancellation by registrant, refunds will be issued if received no later than one week prior to the start of the first session. Genesis Continuing Dental Education reserves the right to program cancellation and will not be responsible for expenses incurred by registrant.

Genesis Continuing Dental Education is designated as an Approved Pace Program Provider by the Academy of General Dentistry. The formal continuing education programs of this program provider are accepted by the AGD for Fellowship, Mastership and membership maintenance credit. Approval does not imply acceptance by state or provincial board dentistry or AGD endorsement. The current term of approval extends from 04/01/2018 to 3/31/2021. Provider ID #377199.

Implant Treatment Decision Making for General Dentists:

What you should know & how we can help YOU

Patients are requesting treatment options to replace missing or non-restorable teeth that are predictable, minimally invasive and cost effective. The introduction of novel surgical and prosthodontic protocols, exciting new diagnostic technology, cutting edge implant topography and esthetic prosthetic materials have become available to clinicians at a daunting pace, making it increasingly difficult to make sense of all of this rapidly emerging information. Dentists are also concerned about the reality of adverse outcomes and how best to manage them. This day long symposium will focus on important clinically relevant topics from an evidence-based standpoint, presented by dentists who are intimately involved in patient care.

This full day symposium will address these important topics:

Systemic Health

- Impact of commonly prescribed medications on dental implant failure

Implant Surgery

- Survival rates of short dental implants
- Clinical performance of tilted implants
- Implant placement and loading protocols

Implant Prosthodontics

- Performance, survival rate and complications associated with zirconia-ceramic and metal ceramic fixed implant prostheses replacing a single tooth
- Endodontic therapy versus single tooth implant

Patient Reported Outcome Measures

- The patient's perspective on immediate loading vs. conventional loading of immediately placed implants

Complications and Risks associated with Implant Prosthodontics

- The diagnosis of peri-implantitis
- Long term complications associated with dental implants placed in host vs augmented site

Incorporating Digital Technology in Implant Prosthodontics

- Static computer aided implant surgery: Accuracy, patient reported outcomes, economics and surgical complications

Faculty

Moderator: Dr. John P. Zarb

Speakers: Dr. Majd Al Mardini, Prosthodontist
Dr. Vinay Bhide, Periodontist
Dr. Steven Bongard, General Dentist
Dr. Robert Carmichael, Prosthodontist
Dr. Lesley David, Oral Maxillofacial Surgeon
Dr. Manor Haas, Endodontist
Dr. David Powell, Prosthodontist
Dr. Phil Walton, Periodontist

This full day symposium is intended for dentists

Dr. Majd Al Mardini , D.D.S., MBA, FAAMP, FRCD(C)

Dr. Majd Al Mardini is a Maxillofacial Prosthodontist, he received his undergrad and D.D.S. from Damascus University and the University of Western Ontario. He received a Certificate in Prosthodontics from the University of Rochester in Rochester, New York and then completed a Fellowship in Maxillofacial Prosthodontics and Oncologic Dentistry at the University of Texas, M.D. Anderson Cancer Center, Houston, Texas. He Completed his Master of Business Administration MBA at both Cornell University in Ithaca, New York, and Queen's University in Kingston, Ontario. Dr. Al Mardini is also the director of the Maxillofacial Prosthetics Unit at Princess Margaret Hospital in Toronto, Ontario. He is also an Associate in Dentistry at the University of Toronto, and a Fellow of the ITI (International Team for Implantology), a fellow of the Royal College of Dentists of Canada and a fellow of the American Academy of Maxillofacial Prosthodontist. Dr. Al Mardini is the Education Delegate for the ITI Canadian Section. He is the author of multiple international publications and the contributor to a textbook published through Elsevier Publishing.

Dr. Vinay Bhide, B.ArtsSc.(Hons.), D.D.S., M.Sc.(Perio.), F.R.C.D.(C)

Dr. Vinay Bhide is a board certified Periodontist who provides the full scope of surgical periodontal and dental implant therapy. Dr. Bhide has a special interest in periodontal plastics and reconstructive surgical procedures. Dr. Bhide earned his DDS from the University of Toronto in 2001, and subsequently completed a one-year internship at Mount Sinai Hospital in Toronto. He completed his M.Sc. and specialty training in Periodontology at the University of Toronto in 2005. Dr. Bhide is an Examiner and Fellow of the Royal College of Dentists of Canada in addition to being a Diplomate of the American Board of Periodontology. Dr. Bhide is also a member of the International Team for Implantology (ITI). In addition to private practice, Dr. Bhide is a clinical instructor in the Department of Periodontics at the University of Toronto where he is involved in didactic and clinical teaching of periodontics at both undergraduate and post-graduate levels. He is also a staff periodontist at Mount Sinai Hospital, Toronto. He has lectured locally and internationally on various topics related to periodontics and surgical implant therapy. In his spare time, Dr. Bhide enjoys spending time with his family, running, playing tennis, and of course, reading just about anything!

Dr. Steven Bongard, DDS

Dr. Steven Bongard obtained his DDS degree from the University of Toronto Faculty of Dentistry in 1986. His professional interest has been concentrated on all aspects of implant dentistry since 1995. He has extensive experience in implant placement, bone grafting procedures as well as the prosthetic component of implant restoration. He has published and lectured both nationally and internationally on implant placement, full arch rehabilitation and non-grafted immediate approaches to implant surgery. He presently maintains a dental practice in Toronto, Ontario that is exclusive to the placement and restoration of dental implants. His recent focus has been on developing a community resource and training centre that can provide access to innovation, technology and advanced infrastructure, as well as support and mentoring, to the dental implant community.

Dr. Robert Carmichael, BSc, DMD, MSc, FRCDC

Robert Carmichael was born in Powell River on Canada's West Coast. He completed his dental training at the University of British Columbia in 1981. Following a 3-year residency in the department of masticatory disorders and removable prosthodontics at the University of Zurich, he attended the University of Toronto where he completed a diploma in prosthodontics. While a fellow of the Medical Research Council of Canada at the University of Toronto, he received his masters of science in oral biology. Presently he serves as chief of dentistry and director of the Ontario Cleft Lip & Palate/ Craniofacial Dental Program at Holland Bloorview Kids Rehabilitation Hospital in Toronto. He is also chairman of the International Team for Implantology (ITI) Scholarship Center at Holland Bloorview, coordinator of prosthodontics at Toronto's Hospital for Sick Children and assistant professor at the University of Toronto. In 2015 Robert was a recipient of the Ontario Dental Association Service Award.

Dr. Lesley David, DDS, Dip. OMFS, FRCDC

Dr. Lesley David is an oral and maxillofacial surgeon who maintains a private practice in Toronto. Dr. David is an Associate Clinician at the University of Toronto in the Oral and Maxillofacial Surgery Clinic, a Fellow and past examiner of the Royal College of Dentists of Canada, and is on staff at the Mt. Sinai Hospital and The Trillium Hospital. She is a remedial course provider in oral and maxillofacial surgery for the Royal College of Dentists of Ontario. She is on the advisory board for DC Institute. Dr. David has numerous publications in implant dentistry and lectures internationally on various topics in implant dentistry and oral and maxillofacial surgery.

Dr. Manor Haas, DDS, Cert. Endo., MSc(D), FRCD(C) Certified Specialist in Endodontics and Microsurgery

Dr. Haas is a Certified Specialist in Endodontics who is extensively and passionately involved in continuing education (lectures and workshops) to general dentists and specialists. He is a Fellow of the Royal College of Dentists of Canada and is on Staff at the University of Toronto Faculty of Dentistry and the Hospital for Sick Children.

He maintains a full time private practice limited to Endodontics and Microsurgery in Toronto. Dr. Haas has lectured internationally on nearly all aspects of modern Endodontics. He has never had any financial or proprietary interest in any endodontic product.

Dr. David Powell, DMD, MSc, FRCD(C)

Dr. Powell received his Doctor of Dental Medicine degree from McGill University in 2011 and then completed a General Practice Residency at the Jewish General Hospital in Montreal. After practicing as a general dentist at the same hospital for a year, he then pursued his Prosthodontics specialty training and Masters of Sciences at the University of Toronto. Dr. Powell currently works in Private Practice at Chrysalis Dental Centres and Barrie Dental Specialists, where he provides both surgical and restorative implant treatments. He is passionate about the evolution of digital workflows in dental practice. He is also a clinical lecturer in the department of Prosthodontics at University of Toronto and has hospital privileges at Mount Sinai Hospital. He is a fellow of the Royal College of Dentists of Canada and member of the Association of Prosthodontists of Canada and the American College of Prosthodontists.

Dr. Philip Walton, DDS, M. Sc (Perio), FRCD (C)

Dr. Philip Walton earned his DDS degree from the University of Toronto. He completed externships at the University of Michigan and overseas at King's College London School of Medicine and Dentistry in London, England and completed his Masters of Medical Sciences degree in Periodontology at the Harvard School of Dental Medicine. Dr. Walton is a Fellow of the Royal College of Canada. He is a member of the surgical team at Chrysalis Dental Centres in Toronto where he has been focusing on the placement and immediate loading of dental implants as well as enhancing techniques for the development and maintenance of predictable soft tissue results in relation to dental implant placement and restoration. Dr. Walton is a former Associate Professor at the Faculty of Dentistry at University of Toronto, where he participates in the clinical and didactic training of undergraduate dental students. He also continues to maintain a strong affiliation to Harvard as a past clinical instructor, admissions committee member and active alumnus.

Dr. John P. Zarb BA, DDS, MSc (Prosth), FRCD (C)

Dr. John P. Zarb earned his DDS at the University of Detroit Mercy in 1995. Upon graduation, he completed a one year General Practice Residency at the VA Hospital in Ann Arbor, MI, followed by graduate prosthodontic training at the University of Toronto, earning his MSc in 2002. Dr. Zarb is a staff prosthodontist in the Graduate Prosthodontic Department at the University of Toronto and at Mt Sinai Hospital in Toronto, and a Clinical Assistant Professor at the University of Rochester, Eastman Institute for Oral Health. He has been involved with surgical and prosthetic implant dentistry education at both the undergraduate and graduate level. Dr. Zarb joined Barrie Dental Specialists in 2003. He is a Fellow, examiner and Prosthodontic Director of the Royal College of Dentists of Canada, a Fellow in the Academy of Dentistry International, and Fellow in the Academy of Prosthodontics and a former Director of the American College of Prosthodontists.
