## A Team Approach to Learning

**A combination of recorded surgeries and hands-on training which will expose dental teams to this remarkable solution for the missing single posterior tooth.**

- **Identify patients that would be good candidates for the extraction and immediate placement of a dental implant to replace a molar.**
- **Identify the pre-operative, surgical and prosthodontic workflows.**
- **Experience the fabrication of a fixed immediately inserted transitional single implant crown.**
- **Communication and scheduling of treatment**
